Short Description

Harmony essence will clear the heart from deep grief due to sentimental attachments.

Description

Harmony essence will clear the heart from deep grief due to sentimental attachments.

Through unconsciously holding onto and still being attached to sentiments of past we cannot move on and live our lives fully, as we are not open to new experiences.

This bottle is a gentle reminder that to bring harmony into our lives, we need to let go of past grief and open our heart so that future experiences can lead to deep transformation in the individual's soul.
