## Description

### **Reiki Sessions**

#### **Reiki 1**

Is a journey both in the healing of others, and is a journey in developing self understanding and self relevance in the healing art of laying on hands .During Reiki level 1 you will receive four sacred attunements to align and tune in your energy centres. These attunements increase your body's vibration and will connect you to Reiki for life, empowering you to use Reiki on yourself, family, friends and pets.

Once the attunements are complete the universal life force energy becomes amplified when drawn through your hands. You will learn about the Chakra healing system, basic hand positions for treatments and other ways you can use Reiki in your life.

#### **Reiki 2**

In Reiki 2 you will be “imprinted” with the symbols, these symbols are used for absent healing. The symbols also have a wide range of uses for clearing, healing, and enhancing people, situations and ideas.

Reiki symbols are true living organic energy patterns which allow us to contact the inner realms or energy centre.

Each attunement is completed over 1 day, and those who do Reiki 1 are asked to sit with

the energy for a minimum of 3 months before completing Reiki 2. This honours the energy and gives space for you to connect deeply with the personal healing and changes that will take place in your own energy field.

Stepping forward to receive Reiki 2 is deepening your commitment to Reiki, taking greater responsibility for your life.
